

**Q: It appears there are 3 distribution paths listed for Thursday - can you explain what will be shown on each feed?**

A: The two CNN feeds are for two cameras in the Carson City hearing room. The ABC feed is for the camera in the Lovelock hearing room.

**Q: I saw the windows open at 9am PST - could you share the scheduled time the hearing is expected to begin?**

A: We expect the hearing to begin on time at 10:00 AM.

**Q: How can a news organization (such as mine) which does not have a satellite downlink access the pool video feeds, both from the pool video camera at Lovelock, and the pool video camera in Carson City?**

A: There are a number of organizations who plan on live streaming the hearing. We will post some links on our website once we have a list.

**Q: Is there another feed for the actual teleconference between the Parole Board and the institution at Lovelock. If so, how can my news organization access that feed?**

A: Once the hearing is complete, we will convert the actual conference video and place it online for viewing.

**Q: Will the teleconference between board members and the inmate be streamed to, or available to watch at, the Grant Sawyer Building as the teleconference happens live?**

A: No, we are unable to live-stream the actual video conferenced hearing.

**Q: How will the video feeds be made available at both Carson City and Lovelock locations, other than via satellite?**

A: Monitors will be set up in the media areas at both Lovelock and Carson City.
