

Nevada Parole Guidelines

Aggravating and Mitigating Factors Definitions Rev -11/2016

Aggravating Factors

Prior Prison term did not deter future criminal activity:

Indicate this factor if the inmate served a separate period of incarceration not related to the current period of incarceration. 'Prior prison term' does not include periods of incarceration as a result of parole violations on the current period of incarceration. A 'period of incarceration' includes sentences that are served consecutively.

Prior Sex conviction or delinquency adjudication:

Indicate this factor if the prisoner has a prior sexual conviction or delinquency adjudication. If the prisoner has a combination of violent and sex convictions or delinquency adjudications, apply this factor and do not apply the factor related to the prior violent conviction or delinquency adjudication.

Prior violent conviction or delinquency adjudication:

Indicate this factor if the prisoner has a prior violent conviction or delinquency adjudication. If the prisoner has a combination of sex and violent convictions or delinquency adjudications, apply the factor related to prior sex conviction or delinquency adjudication, and do not indicate this factor.

Repetitive Similar Criminal Conduct

Indicate this factor if there are two or more prior convictions or delinquency adjudications resulting from separate periods of similar criminal conduct. The prior repetitive conduct need not be similar to the instant offense. Do not count the instant offense as one of the prior convictions or delinquency adjudications. Count misdemeanor and felony convictions or delinquency adjudications, i.e., multiple property convictions and/or delinquency adjudications, multiple drug convictions and/or delinquency adjudications.

Significant prior criminal history

Significant prior criminal history is defined as two or more prior felony convictions or delinquency adjudications related to separate periods of criminal activity. For example, three prior property convictions or delinquency adjudications related to the same crime spree should be counted as one event.

Commission of a crime while incarcerated, on bail, eluding, on escape status, or while under parole or probation supervision.

Indicate this factor if the prisoner has ever been convicted of a crime while incarcerated, on bail, on escape status, or while under felony parole or probation supervision. Indicate this factor if the prisoner eluded or attempted to elude capture during a prior or current offense. Count misdemeanors and felony convictions or delinquency adjudications.

Disruptive Institutional Behavior

Indicate this factor if the prisoner has engaged in disruptive institutional behavior within 36 months of the hearing month as defined as follows:

- Aggravated Escape
- Use of Weapon in Custody
- Propelling of Bodily Fluid

Disruptive Institutional Behavior (continued)

- Rioting
- Assault

Refuse to participate in, or terminated for cause from treatment

Indicate this factor if there is evidence that the prisoner refused to participate in appropriate treatment, or was terminated for cause from treatment. Termination from treatment due to medical issues, housing change or determination by a counselor that the treatment was not necessary or not appropriate is not considered cause.

Housed in disciplinary segregation within 24 months.

Indicate this factor if the prisoner has been housed in disciplinary segregation for any period of time during the 24 months prior to the month the hearing will take place.

Removal from community supervision program (305/184/317) on current period of incarceration.

Indicate this factor if the prisoner has been released to a community supervision program such as the 305, 184 or 317 program, Casa Grande, etc, and been returned to custody because of program failure. Current period of incarceration only.

A program failure does not include a removal for reasons other than those caused by acts or omissions of the prisoner that occurred during the program participation (i.e., the prisoner is removed from participation because a new sentence is imposed for prior criminal activity which changed the prisoner's eligibility for participation).

Multiple prior parole/probation revocations.

Indicate this factor if the prisoner has a history of three or more parole or probation revocations (felony or gross misdemeanor).

Crime was targeted against a child or person at greater vulnerability because of age/disability.

Indicate this factor if the age of the victim was under 18 years old or over age 65, or if the PSI indicates that the victim suffered from a mental or physical disability prior to the crime.

Nature of criminal record is increasingly more serious.

Indicate this factor if criminal conduct of the person has escalated over time to include violence toward victims or others, or the scale of criminal activity has increased over time. This factor is used as a possible indicator of serious activity in the future.

Impact on victim(s) and/or community:

Indicate this factor if the offense caused the death or disability to a person, or if a victim was assaulted or injured whether deliberately or accidentally. Indicate this factor if the financial loss to a victim was substantial. Indicate this factor if the crime shocked the community in such a way as to cause significant public outrage and contempt toward the offender.

The extreme or abnormal aspects of the crime.

Indicate this factor when the details of the crime indicate that the crime was conducted in such a manner that shows sophistication in planning or carrying out an offense, or the nature of the conduct is shocking to a normal person. Examples may include but are not limited to: Mutilation or abuse of a corpse following a murder; serial murder; serial sexual assault or numerous victims of a sex offender; the torture of a person or animal.

Other Aggravating Factors:

Other aggravating factors may include, but are not limited to:

- Psychological evaluations/prognosis.
- Substantive statements including threats of harm against another person upon release, or other information provided during interview that concerns the Board that the inmate may be a risk to public safety if released on parole.

Mitigating Factors:

No prior/minimal criminal conviction or delinquency adjudication history.

Indicate this factor if the offender has no prior felony convictions, no prior Gross Misdemeanor convictions, no Misdemeanor convictions or delinquency adjudications for indecent exposure or violence, and no more than three prior non-violent Misdemeanor convictions or delinquency adjudications. Failure to appear, civil protective custody and traffic offenses are excluded.

Infraction free for two years or more to hearing month and not in disciplinary segregation. Indicate this factor if the inmate has been infraction free within the last two years from the hearing month, and had not been housed in disciplinary segregation during that time.

Lesser involvement in the instant offense.

Indicate this factor if there are co-offenders who received similar penalties, and the involvement of the inmate being considered for parole was markedly less than that of the co-offenders. An example is a person who acts as the driver of a get-away vehicle for a botched burglary which results in the murder of the victim. Although the driver in this example did not participate in the actual killing of the victim, Nevada's felony murder rule could result in the driver being convicted of 1st Degree Murder.

Positive adjustment to halfway house/work release program.

Indicate this factor if the reports from the NDOC or P&P indicate that the person being considered is adjusting favorable to a house arrest program, work release program or position as a community trustee. Some examples include housed in Casa Grande or restitution center, any of the house arrest programs, assigned to work as a community trustee (motor pool, printing office, working for NDF, etc).

Participation in programs specific to addressing the behavior that led to their incarceration.

Indicate this factor if the report or documentation provided by the NDOC indicates that the inmate has successfully participated (or is currently participating) in a program that specifically addresses behaviors that led to incarceration. For example, an inmate serving a sentence for a drug related crime who has participated in a DOC certified substance abuse program, or a sex offender who has received specific sex-offender therapy.

Prior successful completion of parole or probation supervision other than summary or court-based supervision.

Indicate this factor if the inmate has successfully completed (honorable discharge only) a period of parole or probation (other than summary or court-based supervision). If the type of discharge is not indicated or indeterminable, indicate this factor unless there is evidence of criminal conduct during the period of supervision.

Community and or family support

Indicate this factor if the progress report or other document indicates community support such as family, church, friends, etc. This factor should also be indicated if there is no documentation, but supporters attend the parole hearing.

Stable release plans.

Indicate this factor if there is documentation indicating that the inmate has a job opportunity as well as a place to live and the means to travel there upon release. Transition through a residential treatment program counts as stable release plans.

Pending CS sentence or detainer lodged by other jurisdiction.

Indicate this factor if the inmate has a consecutive sentence to serve, or there is a detainer from another jurisdiction that would cause the continued detention or possible deportation of the inmate.

Crime was situational without evidence of intent to harm as information derived from PSI.

Indicate this factor if the pre-sentence investigation indicates evidence that the crime was situation without evidence to harm another. An example is a person who is convicted of DUI with injury, without any prior conviction or delinquency adjudications for DUI.

Case history demonstrates remorse.

Indicate this factor if the pre-sentence investigation indicates that the offender demonstrated immediate remorse. Examples of this are, the offender immediately turned himself in to authorities, or immediately sought treatment or paid restitution. This type of action should be completely voluntary, and not as a result any negotiation or other impending action. Weight to this factor is given to the display of remorse prior to arrest as opposed to subsequent to arrest.

Consistent in managing their mental illness as recommended by professionals, if the mental illness may be a contributing factor to criminal behavior.

Indicate this factor when applicable, when there is evidence that the offender has been consistent in properly managing their mental illness.

NOTE: These instructions were developed to assist the Parole Board in applying aggravating and mitigating factors in a consistent manner. The Board defines and determines how each factor should be applied. Furthermore, the Board is not required to apply any factor (NAC 213.518(1)). The Board is not bound by this document when it determines other circumstances that warrant the application of a factor in a manner inconsistent with these instructions. In addition, the Board may apply any other factor as it deems appropriate, and in the manner in which it deems appropriate pursuant to NAC 213.518(2)(p) and NAC 213.518(3)(m).
